

I benefit greatly from listening to XM Satellite Radio and its traffic and weather channels. Satellite radio provides a variety of music, talk, weather and traffice that quite frankly are missing in most markets. I pay for these services and it should not be up to the National Association of Broadcasters to dictate what I am permitted to hear. I respectfully urge the FCC to reject the NAB's petition 04-160 and support XM's ability to provide the kind of programming that I have subscribed to.
